OUR ALUMNI - SERVING THE SOCIETY

Apart from mentoring students, Samidha undertakes other initiatives like Book Collection Drives, Plantation Drives, Half Yearly Celebrations, Republic day, Independence Day Celebrations etc. time to time to strengthen our cause

With the motto, 'Vidyarthi Vidyam Labhatey, which translates to 'the one who seeks knowledge eventually finds it', Samidha started its journey nearly nine years ago in March 2013 from the premises of GB Pant Engineering College. Since then, the society has continuously strived to impart quality education to students of underprivileged sections of society

TESTIMONIALS

Dear Professor,

Season's Greetings!

The pandemic has brought in a wave of technological disruption making us more agile. While we sit back and reflect on the year gone by, there is a lot, we have to be grateful for.

You have been a pillar of support to us and your relentless efforts are truly appreciated by the Infosys Campus Recruitment team.

As a small token of acknowledgment, to recognize your continuous support, we will be sending you an appreciation certificate. An e-certificate is attached herewith, while a physical certificate shall be sent to your postal address in the coming days.

We wish a very happy new year to you and your loved ones.

Back in 2012, when I joined G. B. Pant Government Engineering College in the CSE Department, I was very reluctant to accept the college as 'my' college. Today, when I look behind I feel glad having been enrolled there for my B. Tech. Honestly, Engineering in GBPEC could be boring as compared to private counterparts but truly the excellence of students enrolling every year is commendable. GBPEC started functioning from 2007 and within a short span, it's students all across the globe have brought it up to the note of top companies.

I was from the medical background when I joined and I am thankful to my teachers and friends who positively supported me during early college days. Four years in GBPEC were a roller coaster ride in terms of marks, assignments, and projects but this was a memorable journey with new semesters, new teachers, and good friends.

Right from college days, I was seeking a work profile towards research areas of Computer Science. With that vision in mind and knowledge, **I was able to successfully land in one of the prestigious organizations of India, namely the Indian Space Research Organization. I secured All India Rank-1 in ISRO's Centralized Recruitment Exam 2018 for Scientist positions in the CS department. I am continuing to serve the nation since then.**

Hey Juniors, It's now your responsibility to take GBPEC to new heights!
